healthwatch

Bradford and District

What is Enter and View?

It is one way we hear people's experiences of health and social care. It involves Healthwatch staff and volunteers going to publicly funded health and social care services to assess them.

What does an Enter and View (Authorised Representative) Volunteer do?

Volunteers research and visit health and social care settings across Bradford District. They observe, listen to patients and their carers, as well as staff at the service. Ways to improve are then recommended in a report to the service.

How can I find out more and apply?

More information is on our website. To discuss the role, contact Alan Walsh on 01535 665 258 or volunteer@healthwatchbradford.co.uk
